My Loving Grandfather

Posted by: Mark, 19/08/2015

How I loved walking in your footsteps when I was young as we tramped about the countryside. How I how you would be proud of me as I continue to walk in your footsteps now you are gone. Memories of you keep you close, visions of you keep you near. My memories of you enrich my life. My time with you was far to short but the impact will last my lifetime.
